

***Special Use Permit #2018-0017
421 Clifford Avenue – Mother of Light Center***

Application	General Data	
Public hearing and consideration of a request for a social service use comprised of volunteers who distribute food and clothing and conduct on-site appointments for individuals in need.	Planning Commission Hearing:	June 5, 2018
	City Council Hearing:	June 23, 2018
Address: 421 Clifford Avenue	Zone:	CSL / Commercial Service Low
Applicant: Mother of Light Center	Small Area Plan:	Potomac West

Staff Recommendation: APPROVAL subject to compliance with all applicable codes and ordinances and the recommended permit conditions found in Section III of this report.

Staff Reviewer: Madeleine Sims, madeleine.sims@alexandriava.gov

CITY COUNCIL ACTION, JUNE 23, 2018: City Council approved the Planning Commission recommendation with an amendment to condition 14 stating, "The applicant shall help enforce this condition by visiting the site regularly during non-operating hours and responding promptly to complaints to rectify improper storage of supplies;" remove the words "one hour" from condition 2e; and remove the language related to the religious reference from 2b.

PLANNING COMMISSION ACTION, JUNE 5, 2018: On a motion made by Vice Chairman Macek and seconded by Commissioner Brown, the Planning Commission voted to recommend approval of Special Use Permit #2018-0017 with revised language and an amendment to Condition 14 from the June 1, 2018 memorandum; amendments to Conditions 2 and 26; the deletion of Condition 9; and subject to compliance with all applicable codes, ordinances, and staff recommendations. The motion carried on a vote of 6-0, with Commissioner Melissa McMahon absent.

Reason: The Planning Commission largely agreed with staff analysis.

Commissioner Wasowski inquired about the kinds of on-site appointments that would be provided and the management of the on-site operations. She also expressed interest in simplifying conditions, and deferring the request, however noting that the applicant revised the proposal entirely to address community concerns.

Commissioner Lyle asked the applicant about the choice of location and control over the site. She explained concerns over volunteer-led operations and was inclined to defer the case to allow the applicant additional time to provide clarity in their application.

Vice Commissioner Macek shared concerns that Conditions 2 and 9 were too narrowly tailored. He provided condition language for a Condition 2 amendment and suggested deleting Condition 9 to give the applicant more flexibility.

Commissioner Brown stated that he was opposed to deferring the case. He reiterated that the Planning Commission does not consider business readiness in their decisions, and that the commission's review addresses compliance with the Zoning Ordinance.

Commissioner Koenig supported the application and did not support a deferral.

Chair Lyman proposed a six-month review and opposed a deferral.

Speakers:

Kyle Williams, 409 Clifford Avenue, opposed the SUP request citing concerns over on-site operations and counseling.

Ashley Preston, 409 Clifford Avenue, cited concerns over the organization's experience and training in opposition to the on-site operations. She noted that she does not oppose the applicant's off-site operations.

Emily Allen, 403A Clifford Avenue, expressed concerns over the applicant's choice in location, the presence of other social service organizations in the neighborhood, and compatibility with the Oakville Triangle Small Area Plan.

Willet Hossfeld, 412 Clifford Avenue, cited concerns over the screening of individuals to be served on-site, a lack of applicant outreach and established procedures, and security impacts.

Adrienne Miller, 413 Clifford Avenue, expressed concerns over loitering, crime, and impacts arising from the new organization. She did not believe this was an appropriate location for this use. She expressed that she was not opposed to the off-site operations, only the on-site operations.

Anne Issacs, 408 Clifford Avenue, expressed additional concerns over safety and security of the neighborhood. She recommended that the applicant remove the on-site client services.

Nataly Juckovsky, 408 Clifford Avenue, stated that she believed neighborhood problems would result from the use and that she would like to know the contact information of the volunteers on-site if issues arise.

Beth Currier, representing the Board of Directors for the Mother of Light Center, applicant, stated that the application had been revised from a respite day center to a volunteer outreach center in response to resident concerns that were expressed at the Del Ray Land Use Committee. She responded to speaker concerns explaining that a full-time volunteer manager would be on-site; that the location was chosen due to the proximity to 12 regional churches; and that the policy and procedures handbook would be finalized if SUP approval was granted.

Special Use Permit #2018-0017
421 Clifford Avenue

I. DISCUSSION

The applicant, Mother of Light Center, requests SUP approval to operate a social service use comprised of volunteers who distribute food and clothing off-site and conduct on-site counseling and tutoring appointments for individuals in need at 421 Clifford Avenue. Operations would include coordination and storage of donations, volunteer training, and counseling appointments related to the social service program.

SITE DESCRIPTION

The subject property is comprised of two equally sized, rectangular lots of record with a total of 50 feet of frontage along Clifford Avenue, 105 feet of depth, and a combined lot area of 5,250 square feet. The site is developed with a single story commercial building with two roll-up doors of approximately 1,500 square feet divided into two tenant spaces. The building is set back 74 feet from Clifford Avenue. The structure currently houses AZ Printing and Duplicating, Inc., a personal service copying business in one tenant space of approximately 300 square feet. The applicant would occupy the remaining 1,200 square foot tenant space. The building is served by an on-site parking lot.

The subject property is adjacent to other commercial uses, including Boyles Motor Sales and R Bratti Enterprises to the north, Verizon Wireless to the east, an anticipated daycare to the south, and a vitamin wholesale business, Plaza Izalco, to the west. Farther west of the subject property are several single-family homes. The Men's Home, a recovery home, is located one block south on Hume Avenue.

Figure 1: The subject building and parking lot. The subject tenant space is outlined in red.

BACKGROUND

The subject site has housed other commercial uses such as a sheet metal finishing shop office and personal copying service. In 2001, an applicant submitted SUP #2001-00035 for a light automobile repair facility, however, the application was withdrawn by the applicant before public hearings occurred. An application was also submitted in Fall 2017 for a light auto repair shop; the application was also withdrawn. The property owner was cited in 2008, 2010 and 2014 for tall grass and weeds which were immediately corrected. No zoning violations exist on record.

The applicant's original application submitted on February 15, 2018 requested SUP approval for a volunteer-operated respite day shelter for homeless individuals and those in need which included counseling sessions, on-site clothing and meals distribution and was docketed for the

May hearings. The applicant presented its proposal to the Del Ray Land Use Committee in April 2018 and learned of several neighbor concerns related to decreased property values and increased area crime if the proposed use located at 421 Clifford Avenue. Additionally, residents questioned the professional training volunteers would undergo to serve vulnerable individuals. In addition, the Department of Community and Human Services (DCHS) Office of Community Services were concerned that the applicant's proposed use would require registering with the Partnership to Prevent and End Homelessness and requested additional clarity in the proposal.

After discussions with the community at the Del Ray Land Use Committee meeting in early April the applicant revised their application to reflect a new business plan as a center for the storage of materials to be distributed to persons in need at their respective location and appointments for assistance with volunteers.

PROPOSAL

The applicant, Mother of Light Center, proposes operating a not-for-profit social service use operated by a volunteer board of directors at 421 Clifford Avenue in approximately 1,200 square feet of space. The applicant indicates it would operate as a volunteer center that would primarily act as a coordination point of food and clothing supplies for individuals in need. Its volunteers would collect non-perishable food and clothing and distribute these supplies directly to individuals in the Northern Virginia region. In addition, the applicant would offer counseling sessions including tutoring and application assistance to six clients a week. The applicant also would provide appointments to eight clients a week on Saturday. Details of the proposed use are:

Volunteer Orientation and Training

On Saturday mornings, the applicant proposes conducting volunteer training for up to 10 volunteers. These trainings would include services provided by the Psychology Department of the Divine Mercy University in Arlington and the Green Cross. Twice a month, on Saturday afternoon, the applicant would host a youth volunteering event for 10 youths. Activities would include organizing supplies, and making sleeping mats.

Food and Clothing Collection and Distribution

From 8:30 a.m., to 12 p.m., Monday through Saturday, applicant would organize approximately five volunteers to distribute supplies to individuals identified and referred by local organizations at their place of residence or other off-site location. This would include reviewing requests for service, packaging materials to be distributed, organizing supplies, and tracking outreach activities. From 1 p.m. to 4 p.m., daily, the applicant would coordinate with five volunteers to schedule distribution and deliveries.

Counseling and Tutoring Appointments

The applicant proposes six on-site appointments with referred individuals for counseling and tutoring. The applicant indicates volunteers would provide application assistance to individuals in need, ESL tutoring, and spiritual counseling. Referrals for assistance would be provided by area churches to the Mother of Light Center who would service the call.

Religious service

The operation would offer a mass service for their core team of volunteers on the first Friday of every month for a maximum of 20 volunteers.

Trash

Primarily office supplies, paper plates, utensils, and food containers for a total of two 30-gallon bags a week of trash. Trash would be collected once per week

Noise and Odors

Noise would be limited as the operation would occur entirely indoors. No cooking is proposed and the applicant indicates they do not anticipate odors.

The applicant's proposed weekly schedule of activities and the number of volunteers and clients on site at any one time follow:

Tuesday and Thursday Schedule

1. Off-site distribution of materials and office activities related to the off-site distribution of materials such as packaging of items, organizing, scheduling and coordinating deliveries from 8 a.m. – 4 p.m. (*two shifts of five volunteers, some of whom will be off-site*)

Monday, Wednesday, and Friday Schedule

1. Off-site distribution of materials and office activities related to the off-site distribution of materials such as packaging of items, organizing, scheduling and coordinating deliveries from 8 a.m. – 4 p.m. (*two shifts of five volunteers, some of whom will be off-site*)
2. Between 2 p.m. to 4 p.m. one-on-one appointments scheduled for a maximum of two clients.

First Friday of the Month

1. On-site Mass services limited to a maximum of 20 people, all of whom are indicated to be volunteers (*20 volunteers*).

First Saturday of the Month Schedule

1. Off-site distribution of materials and office activities related to the off-site distribution of materials such as packaging of items, organizing, scheduling and coordinating deliveries from 8 a.m. – 4 p.m. (*two shifts of five volunteers, some of whom will be off-site*)

Second Saturday of the Month

1. Off-site distribution of materials and Office activities related to the off-site distribution of materials such as packaging of items, organizing, scheduling and coordinating deliveries from 8 a.m. – 4 p.m. (*two shifts of five volunteers, some of whom will be off-site*)
2. From 9 a.m. to 12 p.m. volunteer training and orientation for a maximum of 10 volunteers. (*10 volunteer trainees, two volunteers*)
3. From 9 a.m. to 12 p.m. one-on-one appointments scheduled with eight clients. (*eight clients, two volunteers*)

4. From 1 p.m. to 4 p.m. MOLC would host youth volunteers to help with administrative activities such as organization and creating sleeping mats. *(10 youths, two volunteers)*

Third Saturday of the Month

1. Off-site distribution of materials and Office activities related to the off-site distribution of materials such as packaging of items, organizing, scheduling and coordinating deliveries from 8 a.m. – 4 p.m. *(two shifts of five volunteers, some of whom will be off-site)*

Fourth Saturday of the Month Schedule

1. Off-site distribution of materials and Office activities related to the off-site distribution of materials such as packaging of items, organizing, scheduling and coordinating deliveries from 8 a.m. – 4 p.m. *(two shifts of five volunteers, some of whom will be off-site)*
2. From 9 a.m. to 12 p.m. volunteer training and orientation for a maximum of 10 volunteers. *(10 volunteer trainees, two volunteers)*
3. From 1 p.m. to 4 p.m. MOLC would host youth volunteers to help with administrative activities such as organization and creating sleeping mats. *(10 youths, two volunteers)*

PARKING

The subject property is served by an on-site parking lot, which the applicant indicates would provide eight parking spaces. The Zoning Ordinance Section 8-200 (A)(18) stipulates a miscellaneous commercial use provide one parking space for every 400 square feet of floor area, as such, the applicant is required to provide three parking spaces. The applicant meets this requirement through their existing, on-site parking lot which also accommodates the additional space required for the neighboring tenant's personal service business. The applicant is permitted to keep the existing on-site parking lot and the excess parking capacity through the grandfathering provisions as stated in Section 8-200 (F)(7) of the Zoning Ordinance. The applicant thus meets the zoning ordinance requirements for parking for a social service use.

ZONING/MASTER PLAN DESIGNATION

The subject property is zoned CSL / Commercial Service Low, which allows social service uses with Special Use Permit approval. The subject property is located within the Potomac West Small Area Plan that designates the property for low scale commercial and light industrial uses compatible with adjacent residential neighborhoods and, more specifically, within the Oakville Triangle / Route 1 Corridor Plan area, which is part of the Small Area Plan. The corridor plan anticipates redevelopment of the subject area for residential uses in the future.

II. STAFF ANALYSIS

Staff supports the applicant's proposal and finds the use unlikely to generate impacts with the conditions included in this report. The use would be limited in scope, quiet in nature, and occurs entirely indoors. Appointments, storage, and other services would be unlikely to generate impacts related to noise, odor, and traffic. The subject building, where activities would occur, is set back from the street and abuts commercial properties.

The DCHS concerns surrounding the proposal originally stemmed from the applicant's initial application proposing a day shelter with on-site services for individuals in need. The DCHS finds that the revised proposal to operate the social service at 421 Clifford Avenue as a place to coordinate volunteers, package donation materials, distribute the supplies off-site to those in need, and to conduct six counseling appointments a week would not conflict with the City's continuum of care obligations associated with the Hearth Act. To ensure that the applicant operates in compliance with the DCHS parameters, Condition #2 delineates how the applicant is permitted to operate through this SUP. The applicant is permitted to store materials on-site directly related to the distribution operations. Business office and administrative functions are permitted and off site distribution of materials are permitted. On-site appointments are permitted on Monday, Wednesday, and Friday between 2 p.m. to 4 p.m., for maximum of two clients per day as stated in Condition 2. These activities can vary from application assistance to personal counseling. No on-site distribution of materials would be permitted. Although the applicant proposes counseling and tutoring appointments from 9 a.m. to 12 p.m. on the second Saturday of each month for a maximum of eight clients, staff does not support the inclusion of these appointments as part of the operation. The addition of appointments to the volunteer training and coordination of materials activities would overwhelm the relatively small building and site, potentially resulting in parking and traffic impacts. Condition #2, which outlines the staff recommendation of SUP approved operations at the site, does not include the Saturday appointments.

Any intensification of the use or addition of services not included in this proposal would require City Council approval of an amendment to the SUP, also stated in Condition #2. Condition #3 also ensures that the applicant does not exceed its operational scope or intensifies the use by requiring it to contact local continuums of care to ensure compliance with local communities and Hearth Act mandates as each municipality has a continuum of care for homeless services. Condition #4 requires the applicant to contact City agencies that handle homeless and hunger-related services to establish partnerships and develop best practices for serving the Alexandria community.

A second community meeting occurred on May 7, 2018 with the Del Ray Land Use Committee, and the applicant. Staff heard concerns pertaining to volunteer training, parking, security, and client transportation. Staff has some letters of opposition detailing concerns over operation management, deliveries, and operations. A principle concern was the transportation and control over clients coming to the site to pick-up materials. As such, a prohibition on the on-site distribution of materials in Condition #2 would ease concerns over additional traffic (both foot and vehicular) and the neighbors concern over the transportation of individuals without vehicles.

Several conditions address security and operational concerns of nearby residents. Condition #6 requires the applicant to install the proposed security system before operations begin and Condition #5 which requires the applicant to establish an agreement with the Alexandria Police Department to enforce loitering and trespassing laws on private property. The site is also enclosed by a locking gate adding to safety measures that the applicant intends to lock when the property is not in use. Conditions #11 through #13 require the applicant to establish an on-site manager, keep the Department of Planning and Zoning updated with changes to the Mother of

Light Center board including contact information, and establishing a community liaison who the public can contact if issues arise, respectively.

Parking lot maintenance, parking, and traffic flow are also addressed through conditions in this SUP report. Condition #7 requires the applicant to submit a scaled plan depicting a minimum of four parking spaces. Condition #8 requires the applicant maintain the parking lot in good condition. The use would be unlikely to generate additional traffic or parking needs because of its small size. Nevertheless, staff has included Condition #9 to encourage volunteers and employees to access the site via Route 1, minimizing the amount of traffic on the residential portions of Clifford Avenue. Condition #10 requires the applicant to train employees, and volunteers, on the conditions of this Special Use Permit.

Condition #14 establishes the parameters for deliveries, requiring them to occur only during operational hours between 8 a.m. to 4 p.m., be entirely on-site, and be met by a staff person. Condition #15 prohibits the outdoor storage of materials and donations except for cleaning materials stored under a roof. Environmental impacts are not anticipated as the applicant indicates no hazardous materials other than common, household cleaners would be used, nevertheless staff has included conditions pertaining responsible environmental practices including noise control, odor, pollution, litter, and storm water runoff (Conditions #16 - #22). Condition #23 requires all employees and volunteers to use off-street parking. Condition #24 requires the applicant to encourage its employees and volunteers to use public transportation when accessing the site. Litter would be managed by on-site volunteers who would patrol the site for litter, as formalized in Condition #24 requiring the applicant to patrol the surrounding area for litter three times daily. As the site is in an area slated for redevelopment, staff has also included Condition #25 to establish an administrative SUP review five years from approval (June 2023) with notice to the community to assess redevelopment potential and compatibility with the surrounding area with the potential for docketing with the Planning Commission and City Council.

Subject to the conditions contained in Section III of this report, staff recommends **approval** of the Special Use Permit request.

III. RECOMMENDED CONDITIONS

Staff recommends **approval** subject to compliance with all applicable codes and ordinances and the following conditions:

1. The Special Use Permit shall be granted to the applicant only or to any corporation in which the applicant has a controlling interest. (P&Z)
2. The applicant shall operate consistent with the description below. Any intensification of the use, including an increase of homeless services, will require City Council approval of an amendment to the SUP. (PC) (CC)
 - a. The operating hours shall be between 8 a.m. and 6 p.m., Monday through Saturday.
 - b. Condition deleted by Council.
 - c. On-site storage of materials for the off-site distribution only is permitted. No on-site distribution of materials, such as clothing and food, shall be permitted.
 - d. Administrative office activities are permitted.
 - e. On-site appointments are permitted for counseling, tutoring or assistance with social service applications three days a week. A maximum number of six appointments shall be permitted per week. This number may be adjusted following a six-month review at the discretion of the Director of Planning and Zoning.
 - f. Volunteer training is permitted.
 - g. Condition deleted.
 - h. Cooking is not permitted on-site.
 - i. A maximum of 20 volunteers is permitted on-site at any one time.
3. The applicant shall contact the local homeless continuums of care for the jurisdictions where its clients may reside and who may request homeless services that extend beyond this approval. (P&Z) (DCHS)
4. The applicant shall contact the Partnership to Prevent and End Homelessness in the City of Alexandria, Hunger-Free Alexandria, and Partnership for a Healthier Alexandria to develop possible partnerships. (P&Z) (DCHS)
5. The applicant shall execute and maintain an up-to-date agreement with the Alexandria Police Department (APD) that allows APD to enforce no trespassing and no loitering laws and policies on the property. (P&Z)
6. The applicant shall install a security system as proposed in the application materials dated May 11, 2018. (P&Z)
7. The applicant shall submit a parking layout plan that includes a minimum of four parking spaces and for striping of parking spaces subject to the approval of the Director of Planning and Zoning. (P&Z)

8. The parking lot shall be maintained in good condition and kept free of weeds and tall grass. (P&Z)
9. Condition deleted. (PC)
10. The applicant shall conduct employee and/or volunteer training sessions on an ongoing basis, including as part of any employee or volunteer orientation process, to discuss all special use permit provisions and requirements. (P&Z)
11. The applicant shall establish a board member of the Mother of Light Center to act as an on-site manager during operating hours. (P&Z)
12. The applicant shall maintain an up to date list and contact information of the Mother of Light Center's board of directors with the Director of Planning and Zoning. (P&Z)
13. The applicant shall establish a community liaison from its board of directors who shall provide their contact information to neighbors and the City. (P&Z)
14. Supply deliveries, loading, and unloading activities shall occur between the hours of 8 a.m. to 4 p.m., and must occur entirely on-site, by a passenger vehicle and/or 12-foot box truck, and met by staff or a volunteer. Deliveries, loading, and unloading shall not occur from Clifford Avenue. The applicant shall help enforce this condition by visiting the site regularly during non-operating hours and responding promptly to complaints to rectify improper storage of supplies. (PC)
15. No outdoor storage of materials is permitted, other than those permitted in conditions. (P&Z)
16. The applicant shall control cooking odors, smoke and any other air pollution from operations at the site and prevent them from leaving the property or becoming a nuisance to neighboring properties, as determined by the Department of Transportation & Environmental Services. (T&ES)
17. All waste products including but not limited to organic compounds (solvents and cleaners) shall be disposed of in accordance with all local, state and federal ordinances or regulations. (T&ES)
18. The use must comply with the city's noise ordinance. All loudspeakers shall be prohibited from the exterior of the building, and no amplified sounds shall be audible at the property line. (T&ES)
19. Exterior power washing of the building shall not be completed using any kind of detergents. (T&ES)
20. Chemicals, detergents or cleaners stored outside the building shall be kept in an enclosure with a roof. (T&ES)

21. Trash and garbage shall be stored inside or in sealed containers that do not allow odors to escape, invasion by animals, or leaking. No trash or debris shall be allowed to accumulate outside of those containers. Outdoor containers shall be maintained to the satisfaction of the Directors of P&Z and T&ES, including replacing damaged lids and repairing/replacing damaged dumpsters. (P&Z) (T&ES)
22. Litter on the site and on public rights-of-way and spaces adjacent to or within 75 feet of the premises shall be picked up at least twice a day and at the close of business, and more often if necessary, to prevent an unsightly or unsanitary accumulation, on each day that the business is open to the public. (T&ES)
23. The applicant shall require its employees and volunteers who drive to use off-street parking. (T&ES)
24. The applicant shall encourage its employees and volunteers to use public transportation to travel to and from work. The business shall contact Go Alex at goalex@alexandriava.gov for information on establishing an employee transportation benefits program. (T&ES)
25. The Special Use Permit shall be reviewed by the Director of Planning & Zoning, with notice to the community, five years from approval (June 2023) to assess the redevelopment potential of the site and the compatibility of the use with other uses in the area. If the Director determines the use to be incompatible with surrounding uses or anticipated redevelopment, the Director shall docket the Special Use Permit for Planning Commission and City Council to take such action as they deem appropriate at the time. (P&Z)
26. The Director of Planning and Zoning shall review the special use permit after it has been operational for six months and one year, and shall docket the matter for consideration by the Planning Commission and City Council if (a) there have been documented violations of the permit conditions which were not corrected immediately, constitute repeat violations or which create a direct and immediate adverse zoning impact on the surrounding community; (b) the Director has received a request from any person to docket the permit for review as the result of a complaint that rises to the level of a violation of the permit conditions, or (c) the Director has determined that there are problems with the operation of the use and that new or revised conditions are needed. (PC)

STAFF: Mary Christesen, Acting Division Chief, Department of Planning and Zoning
Ann Horowitz, Principal Planner
Madeleine Sims, Urban Planner

Staff Note: In accordance with section 11-506(c) of the zoning ordinance, construction or operation shall be commenced and diligently and substantially pursued within 18 months of the date of granting of a special use permit by City Council or the special use permit shall become void.

IV. CITY DEPARTMENT COMMENTS

Legend: C - code requirement R - recommendation S - suggestion F - finding

Transportation & Environmental Services:

- F-1 Given no specific parking requirement for this use, the Miscellaneous Commercial parking requirement has been considered for this use. For a 1,200 sf building, a minimum of 3 spaces are required. Eight spaces are provided on-site.
- R-1 The applicant shall control cooking odors, smoke and any other air pollution from operations at the site and prevent them from leaving the property or becoming a nuisance to neighboring properties, as determined by the Department of Transportation & Environmental Services. (T&ES)
- R-2 All waste products including but not limited to organic compounds (solvents and cleaners) shall be disposed of in accordance with all local, state and federal ordinances or regulations. (T&ES)
- R-3 Supply deliveries, loading, and unloading activities shall not occur between the hours of 11:00pm and 7:00am. (T&ES)
- R-4 The use must comply with the city's noise ordinance. All loudspeakers shall be prohibited from the exterior of the building, and no amplified sounds shall be audible at the property line. (T&ES)
- R-5 Exterior power washing of the building shall not be completed using any kind of detergents. (T&ES)
- R-6 Chemicals, detergents or cleaners stored outside the building shall be kept in an enclosure with a roof. (T&ES)
- R-7 Trash and garbage shall be stored inside or in sealed containers that do not allow odors to escape, invasion by animals, or leaking. No trash or debris shall be allowed to accumulate outside of those containers. Outdoor containers shall be maintained to the satisfaction of the Directors of P&Z and T&ES, including replacing damaged lids and repairing/replacing damaged dumpsters. (P&Z) (T&ES)
- R-8 Litter on the site and on public rights-of-way and spaces adjacent to or within 75 feet of the premises shall be picked up at least twice a day and at the close of business, and more often if necessary, to prevent an unsightly or unsanitary accumulation, on each day that the business is open to the public. (T&ES)

- R-9 The applicant shall require its employees and volunteers who drive to use off-street parking. (T&ES)
- R-10 The applicant shall encourage its employees and volunteers to use public transportation to travel to and from work. The business shall contact Go Alex at goalex@alexandriava.gov for information on establishing an employee transportation benefits program. (T&ES)
- C-1 The applicant shall comply with the City of Alexandria's Solid Waste Control, Title 5, Chapter 1, which sets forth the requirements for the recycling of materials (Sec. 5-1-99). In order to comply with this code requirement, the applicant shall provide a completed Recycling Implementation Plan (RIP) Form within 60 days of SUP approval. Contact the City's Recycling Program Coordinator at (703) 746-4410, or via e-mail at commercialrecycling@alexandriava.gov, for information about completing this form. (T&ES)
- C-2 The applicant shall comply with the City of Alexandria's Noise Control Code, Title 11, Chapter 5, which sets the maximum permissible noise level as measured at the property line. (T&ES)
- C-3 Section 5-1-42- Collection by Private collectors. (c) Time of collection. Solid waste shall be collected from all premises not serviced by the city at least once each week. No collections may be made between the hours of 11:00 p.m. and 7:00 a.m. (6:00 a.m. from May 1, through September 30) if the collection area is less than 500 feet from a residential area. (T&ES)

Code Enforcement:

- C-1 A building permit, plan review and inspections are required prior to the start of construction.
- C-2 This is a change in use and will require a registered design professional to provide a building code analysis that describes existing conditions.
- C-3 If this center will be regulated by the Virginia Department of social services a request for building evaluation application will be required to be submitted to the department of code administration prior to occupancy.

Fire:

- C-1 The proposed occupancy condition appears to be a change of use for the building. Suggest applicant meet with a design professional to determine what if any changes to the property would be required.
- C-2 Depending on the use of the property, a fire prevention permit may be required.

Department of Community and Health Services:

F-1 The Department of Community and Human Services (DCHS) reviewed the SUP application and met with a representative from the Mother of Light organization. This application is of interest to the department as the stated mission is to serve the residents of Alexandria who are also served by DCHS . The department wants to partner with community organizations that support and encourage safety and well-being for Alexandria's most vulnerable residents. Some areas where more information is needed: the data points and factors used to determine the location, service needs and hours of operation.

Based on the application, the Mother of Life is partnering with churches and other organizations. DCHS recommends that they reach out and partner with some of the key agencies leading some of the work within its mission:

1. Partnership to Prevent and End Homelessness (PPEH) is the homeless continuum of care (CoC). The PPEH is made of organizations serving persons experiencing homelessness and is tasked with implementing the City's strategic plan to prevent and end homelessness by developing and implementing services and resources to this end. It captures the numbers and demographics of the homeless population and evaluates homeless services for efficiency and effectiveness. As the Mother of Light has identified outreach to persons experiencing homelessness as a major part of its mission, it is essential for the Mother of Light to meet with the Partnership to discuss its homeless services. To note, homeless outreach has not been identified as a need at this time.
2. Hunger-Free Alexandria and Partnership for a Healthier Alexandria are two coalitions within the City that are addressing food insecurity and coordinating food distribution and delivery. Thus, DCHS recommends that Mother of Light meet and, if possible, partner with these agencies to provide seamless coordinated services to those in need.

SOCIAL SERVICE USE

THE UNDERSIGNED, hereby applies for a Special Use Permit in accordance with the provisions of Article XI, Section 4-11-500 of the 1992 Zoning Ordinance of the City of Alexandria, Virginia.

THE UNDERSIGNED, having obtained permission from the property owner, hereby grants permission to the City of Alexandria staff and Commission Members to visit, inspect, and photograph the building premises, land etc., connected with the application.

THE UNDERSIGNED, having obtained permission from the property owner, hereby grants permission to the City of Alexandria to post placard notice on the property for which this application is requested, pursuant to Article IV, Section 4-1404(D)(7) of the 1992 Zoning Ordinance of the City of Alexandria, Virginia.

THE UNDERSIGNED, hereby attests that all of the information herein provided and specifically including all surveys, drawings, etc., required to be furnished by the applicant are true, correct and accurate to the best of their knowledge and belief. The applicant is hereby notified that any written materials, drawings or illustrations submitted in support of this application and any specific oral representations made to the Director of Planning and Zoning on this application will be binding on the applicant unless those materials or representations are clearly stated to be non-binding or illustrative of general plans and intentions, subject to substantial revision, pursuant to Article XI, Section 11-207(A)(10), of the 1992 Zoning Ordinance of the City of Alexandria, Virginia.

Revised SUP Application: Mother of Light Center
421 Clifford Avenue, Alexandria

Narrative Description

The Mother of Light Center is a 501(c)3 nonprofit extending Catholic services to men and women who are poor, needy, disadvantaged, and homeless. The Center will announce the good news of God's love in word and action by sharing the love, mercy, and information these people need to journey toward lives of stability, meaning, and hope.

The Center will include a prayer area that will promote an atmosphere of peace, healing, and reverence, and it will be available for individual prayer, quiet reflection, and prayer petitions for our volunteers.

The Center will assist the needy through a network of 12 Catholic churches within a 10-mile radius of the Center to help direct and focus our community engagement. These 12 churches will be the source of our network **for service, support, and volunteers** (see the attached map of churches). Our approach will be to go out to those we seek to serve with practical assistance and spiritual support.

A major part of our mission will be contact with homeless people, reaching them where they are to provide supplies (sleeping mats, seasonal comfort items, snacks) and a personal connection. Each area church knows where its homeless populations are and will guide us in reaching them. All requests for homeless services beyond this contact will be referred to the Department of Community and Homelessness.

We will also provide practical direct assistance to the disadvantaged and needy through our field Community engagement program. This program will distribute food and emergency clothing to the poor and needy through a network of 12 churches and other partners. We will receive calls for service to families or individuals and deliver the needed support directly. Additional services and support that are available from partners and parishes in the area, such as the St. Vincent de Paul Society, St. Lucy Guild, Catholic Council of Women, and Knights of Columbus, will be coordinated as needed.

Limited one-on-one contact will take place at the Center through a network of churches and community volunteers. These services will include counseling by mental health workers and how to access supportive help from trained volunteers, ESL tutoring, and social assistance services (identification applications, social service applications, etc.).

Our **support** from these churches will be in the form of materials needed for our operation, such as nonperishable food for distribution, food for the community engagement program for the homeless, provide clothing upon request as part of our community engagement., and other support items as needs arise (Metro farecards, supermarket gift certificates, laundromat vouchers). These and other churches in the Arlington Diocese will also support the Center with financial donations.

The 12 churches will provide most of our community **volunteers**. Our volunteers will be trained in available resources from city, state, private, and religious programs, such as housing, employment, and financial assistance programs.

Counselors from the psychology department of Divine Mercy University in Arlington will facilitate mandatory training for the Center's community volunteers in the following areas:

- Understanding trauma and psychological first aid
- Scenarios and practice for connecting with the homeless
- Accompanying people in the journey with dignity, compassion, presence, prayer
- Mental Health First Aid USA training
- Healing Emotional Affective Responses to Trauma (HEART Model), a two-day workshop

Additional training for the broader base of volunteers will be given by the Green Cross organization, a nonprofit corporation that trains social service groups in dealing with clients in distressed situations (homeless, chronically poor).

Ongoing monthly training for all volunteers will take place on the 4th Saturday of each month. Topics will vary, and instructors will come from the Green Cross, Catholic Charities, Divine Mercy University, and other organizations as appropriate. All volunteers will also receive an extensive orientation on the rules and regulations of the Center's operation. We also welcome and encourage volunteer support from the neighborhood, underscoring our unity of purpose to help those less fortunate in the neighborhood and neighboring areas.

Capacity of Proposed Use

How many patrons, clients, pupils, and other such users do you expect?

We anticipate scheduling 5 volunteers each morning from 8am to noon and 5 volunteers each afternoon from 1pm to 4pm Monday through Saturday.

One-on-one sessions with referred clients will be held on Mondays, Wednesdays, and Fridays from 2pm to 4pm. Appointment sessions will have 1 volunteer and no more than 2 clients during these times.

On Saturdays, in addition to the volunteer community activities, volunteer training and orientation will be held on the fourth Saturday of the month from 9am to noon. The training and orientation group may not exceed 10 volunteers. Youth volunteer activities will be held on the second and fourth Saturdays from 1pm to 4pm for no more than 10 participants. We will provide clothing upon request as part of our community engagement. No more than 10 clients and 2 additional volunteers may participate.

Daily breakdown of expected use is as follows:

Mon., Wed., Fri.: 5 volunteers at any one time 8am–4pm
1 volunteer and up to 2 clients 2pm–4pm

Total participants at any one time: 8

Tues. and Thurs.: 5 volunteers at any one time 8am–4pm

Total participants at any one time: 5

Saturday: 5 volunteers at any one time 8am–4pm
2 volunteers and up to 8 clients 9am–noon on 2nd Sat.
2 volunteers and up to 10 youth volunteers 1pm–4pm on 2nd and 4th Sat.
10 volunteers for orientation/training 9am–noon on 4th Sat.

Total participants on the first and third Saturdays: 5 at one time.

Total participants on the 2nd and 4th Saturdays: 17 in the morning
17 in the afternoon

First Friday: Mass celebrated on the first Friday of every month for volunteers only. 20 volunteers maximum. Carpooling will be arranged to reduce traffic volume and prevent parking issues.

Planned Outreach from the MOLC to the Neighboring Community

Mother of Light Center has been in contact with the Del Ray Citizens Association. Our first meeting with the Land Use Committee of this association on April 10, resulted in a substantial change to the Special Use Permit application. We listened to the neighbors carefully and took great steps in altering our original plan to alleviate the community's concerns.

Our presentation of the revised SUP to the Land Use Committee on May 8 was well received and resulted in positive support from the Committee, and subsequently from the association.

Recognizing that many neighbors might not have been informed about the MOLC, or the change in the method of carrying out our mission, we have planned for MOLC board members and friends to reach out to the neighbors by canvassing door to door. We will be distributing flyers and hope to answer questions on a one to one basis. Currently, this canvassing is scheduled for May 17-20, and June 2-3. We are not limiting ourselves to these dates, they are only our starting point.

The area we plan to cover is west of Route 1 between E. Glebe Road and E. Randolph Avenue with Mt. Vernon Avenue and Commonwealth Avenue bordering on the west.

Furthermore, we have actively engaged the neighbors in having a voice in the development of our policies and procedures. We've been heartened by the positive response we've received, mostly through several residents planning on volunteering in the Center.

Potential Noise Level

We do not expect that there will be any unacceptable noise levels. The nature of the activities is conducive to quiet reflection and an adult work environment. In addition, the capacity restrictions, work schedule, and normal business hours operations will ensure that there is no disruption of quiet enjoyment of the neighborhood.

Potential Odors

We do not anticipate any odors because of our activities.

Trash and Litter

All trash will be of a normal business type: office paper, disposable plates and cups, food wrappers. Items that can be recycled will be handled separately from regular trash.

We expect to generate two 30-gallon-bags of trash a week.

Trash is collected twice a month. Trash will be collected once per week once we are operational.

Regarding littering: All food for clients will be consumed off site. Any food or refreshments used by the volunteers will be consumed on-site. In addition, we aim to be a good neighbor and will regularly check the surrounding area for trash.

Hazardous Materials: None

Organic Compounds (paint, ink, etc.): None for operation of the location. Any paint used in the rehabilitation of the location will be removed from site by a licensed contractor. Only standard household cleaning supplies will be used.

What methods are proposed to ensure the safety of nearby residents, employees, and patrons? The property will be equipped with a security camera. In addition, the property has a locking gate, which will prevent loitering.

Parking and Access Requirements:

8 standard spaces

Parking is located on-site. *All volunteers will be instructed NOT to park on the street. We will strictly enforce this rule and include it in our policies and procedures.*

USE CHARACTERISTICS

4. The proposed special use permit request is for (check one):
- a new use requiring a special use permit,
 - an expansion or change to an existing use without a special use permit,
 - an expansion or change to an existing use with a special use permit,
 - other. Please describe: _____

5. Please describe the capacity of the proposed use:

A. How many patrons, clients, pupils and other such users do you expect?
 Specify time period (i.e., day, hour, or shift). *Monday through Saturday*
~~55 guests maximum at any one time. Days of operation for guests are Wednesdays and Saturdays from 8:00am - 1:30pm.~~ *8am - 4pm*

see map. at any one time

B. How many employees, staff and other personnel do you expect?
 Specify time period (i.e., day, hour, or shift).
~~5 volunteers. Volunteers may commit to one day a week for one of two shifts: 7:30am - 10:30am or 10:30am - 2:00pm.~~ *5-17 volunteers, stay - see attached*

6. Please describe the proposed hours and days of operation of the proposed use:

Day: Wednesdays and Saturdays	Hours: 8:00am - 1:30pm
see attached schedule of activities	
<i>Monday - Saturday</i>	<i>8am - 4pm</i>

7. Please describe any potential noise emanating from the proposed use.

A. Describe the noise levels anticipated from all mechanical equipment and patrons.
 We do not expect that there will be any unacceptable noise levels. The nature of the activities are conducive to quiet reflection. Additionally, the restrictions on occupancy will control noise.

B. How will the noise be controlled?
 Our hours of operation will preclude noise at an unacceptable level to neighbors and businesses. Additionally, the restrictions on occupancy will control noise.

SUP # _____

8. Describe any potential odors emanating from the proposed use and plans to control them:
 We do not anticipate any odors as a result of our activities. We have nothing in our plans that would cause odors.

9. Please provide information regarding trash and litter generated by the use.

A. What type of trash and garbage will be generated by the use? (i.e. office paper, food wrappers)
 Office paper, paper plates, disposable cups, utensils and napkins. Some beverage and food containers.

B. How much trash and garbage will be generated by the use? (i.e. # of bags or pounds per day or per week)
 Two 30 gallon trash bags per week.

C. How often will trash be collected?
 2 times per month. *When operational - 1x per week.*

D. How will you prevent littering on the property, streets and nearby properties?
 All food will be for consumption within the building only. Additionally, we aim to be a good neighbor and will regularly patrol the surroundings for trash.

10. Will any hazardous materials, as defined by the state or federal government, be handled, stored, or generated on the property?

Yes. No.

If yes, provide the name, monthly quantity, and specific disposal method below:

11. Will any organic compounds, for example paint, ink, lacquer thinner, or cleaning or degreasing solvent, be handled, stored, or generated on the property?

Yes. No.

If yes, provide the name, monthly quantity, and specific disposal method below:
 We will not use volatile organic compounds. All cleaners will be normal, household types

12. What methods are proposed to ensure the safety of nearby residents, employees and patrons?
 The property will be equipped with a security camera with internet connections. Volunteers will have the ability to see what is happening on the property in real time. Additionally, the property has a locking gate which will prevent loitering. All guests will be informed that they are to be off the property within one hour of closing and will not be allowed on the property more than one-half hour before opening.

ALCOHOL SALES

13. A. Will the proposed use include the sale of beer, wine, or mixed drinks?

Yes No

If yes, describe existing (if applicable) and proposed alcohol sales below, including if the ABC license will include on-premises and/or off-premises sales.

PARKING AND ACCESS REQUIREMENTS

14. A. How many parking spaces of each type are provided for the proposed use:

- 8 Standard spaces
- _____ Compact spaces
- _____ Handicapped accessible spaces.
- _____ Other.

<p>Planning and Zoning Staff Only</p> <p>Required number of spaces for use per Zoning Ordinance Section 8-200A _____</p> <p>Does the application meet the requirement?</p> <p style="text-align: center;"><input type="checkbox"/> Yes <input type="checkbox"/> No</p>

B. Where is required parking located? *(check one)*

on-site

off-site

If the required parking will be located off-site, where will it be located?

Street parking is available within 500 feet of the building

PLEASE NOTE: Pursuant to Section 8-200 (C) of the Zoning Ordinance, commercial and industrial uses may provide off-site parking within 500 feet of the proposed use, provided that the off-site parking is located on land zoned for commercial or industrial uses. All other uses must provide parking on-site, except that off-street parking may be provided within 300 feet of the use with a special use permit.

C. If a reduction in the required parking is requested, pursuant to Section 8-100 (A) (4) or (5) of the Zoning Ordinance, complete the PARKING REDUCTION SUPPLEMENTAL APPLICATION.

Parking reduction requested; see attached supplemental form

15. Please provide information regarding loading and unloading facilities for the use:

A. How many loading spaces are available for the use? 0

<p>Planning and Zoning Staff Only</p> <p>Required number of loading spaces for use per Zoning Ordinance Section 8-200 _____</p> <p>Does the application meet the requirement?</p> <p style="text-align: center;"><input type="checkbox"/> Yes <input type="checkbox"/> No</p>
--

B. Where are off-street loading facilities located? N/A

C. During what hours of the day do you expect loading/unloading operations to occur?
~~N/A~~ 9AM - NOON

D. How frequently are loading/unloading operations expected to occur, per day or per week, as appropriate?
~~N/A~~ 1-2X DAILY MON-SAT.
INDIVIDUAL CARS - not trucks.

16. Is street access to the subject property adequate or are any street improvements, such as a new turning lane, necessary to minimize impacts on traffic flow?

We believe street access to the property is adequate.

SITE CHARACTERISTICS

17. Will the proposed uses be located in an existing building? Yes No
Do you propose to construct an addition to the building? Yes No
How large will the addition be? _____ square feet.

18. What will the total area occupied by the proposed use be?
1200 sq. ft. (existing) + 0 sq. ft. (addition if any) = 1200 sq. ft. (total)

19. The proposed use is located in: (check one)
 a stand alone building
 a house located in a residential zone
 a warehouse
 a shopping center. Please provide name of the center: _____
 an office building. Please provide name of the building: _____
 other. Please describe: _____

End of Application

MEMORANDUM

DATE: JUNE 1, 2018

TO: CHAIRWOMAN MARY LYMAN AND MEMBERS OF THE PLANNING COMMISSION

FROM: KARL MORITZ, DIRECTOR, DEPARTMENT OF PLANNING & ZONING

SUBJECT: DOCKET ITEM #6 - SPECIAL USE PERMIT #2018-0017 –
421 CLIFFORD AVENUE

This memorandum provides report revisions pertaining to the review of SUP #2018-0017 which is a request to operate a social service use at 421 Clifford Avenue. The applicant proposes to distribute primarily food and clothing to those in need at off-site locations, host one-on-one counseling and tutoring appointments with clients, in addition to providing on-site volunteer training. Staff proposed revisions to SUP #2018-0017 relate to the:

- Site Description on page 2;
- Proposal on page 4 and 5;
- Staff Analysis on page 7; and
- Recommended Condition 2 on page 9 and Condition 14 on page 10.

I. Staff Report Revisions:

A. Site Description:

Staff proposes to amend the first sentence in the second paragraph of the SUP Site Description on page 3 to correctly identify the tenant to the west of the subject building. The sentence should read:

“The subject property is adjacent to other commercial uses, including Boyles Motor Sales and R. Bratti Enterprises to the north, Verizon Wireless to the east, an anticipated daycare to the south, and a ~~vacant commercial~~ vitamin wholesale business, Plaza Izalco, to the west.”

B. Proposal

Staff proposes revisions to the Proposal section on pages 4 and 5 to correctly represent aspects of the applicant’s final proposal.

1. The second to the last sentence of the first paragraph on page 4 should read:

“The applicant also would provide ~~on-site distribution of clothing~~ appointments to eight clients a week on Saturday.”

2. Under the Volunteer Orientation and Training section on page 4, the second to last sentence should read:

“~~One~~ Twice a month, on Saturday afternoon, the applicant would host a youth volunteering event for 10 youths.”

3. On-site Mass should be proposed as occurring on the First Friday of every month and not the first Saturday. Staff proposes adding a “First Friday of the Month” to the schedule on page 5 and removing the activity under the First Saturday of the Month Schedule as noted:

First Friday of the Month

On-site mass limited to a maximum of 20 people, all of whom are indicated to be volunteers. (20 volunteers)

First Saturday of the Month Schedule

~~2. On-site mass limited to a maximum of 20 people, all of whom are indicated to be volunteers. (20 volunteers)~~

C. Staff Analysis

Staff proposes to amend the last three sentences in the first paragraph on page 7 of the Staff Analysis to add clarity to one element of the applicant’s proposal that the staff does not support.

~~Although the applicant also proposed on-site distribution on Saturdays by appointment, staff has not included this service in Condition #2 and recommends that the operation is limited to off-site distribution. The traffic generated from the appointments in addition to the volunteer coordination efforts and volunteer training would overwhelm the relatively small building and neighborhood area. Last, staff believes it is unlikely that the applicant could reasonably limit the flow of people in need of clothing to appointments.~~

“Although the applicant proposes counseling and tutoring appointments from 9 a.m. to 12 p.m. on the second Saturday of each month for a maximum of eight clients, staff does not support the inclusion of these appointments as part of the operation. The addition of appointments to the volunteer training and coordination of materials activities would overwhelm the relatively small building and site, potentially resulting in parking and traffic impacts. Condition #2, which outlines the staff recommendation of SUP approved operations at the site, does not include the Saturday appointments.”

D. Recommended Conditions

Staff proposes a typographical correction to Condition #2, and the addition of specific language to Condition #14 to ensure all loading and unloading activities occur on the property.

2. **CONDITION AMENDED BY PLANNING COMMISSION:** The applicant shall operate consistent with the description below. Any intensification of the use, including an increase of homeless services, will require City Council approval of an amendment to the SUP. ~~(P&Z)~~ (PC)
 - a. The operating hours shall be between 8 a.m. and 4 p.m., Monday through Saturday.
 - b. Religious services are permitted as an accessory use to the operation.
 - ~~c.~~
 - ~~d.~~ c. On-site storage of materials for the off-site distribution only is permitted. No on-site distribution of materials, such as clothing and food, shall be permitted.
 - ~~e.~~ d. Administrative office activities are permitted.
 - ~~f.~~ e. On-site appointments are permitted for counseling, tutoring or assistance with social service applications three days a week from 2 p.m. to 4 p.m. for a maximum of two clients per day.
 - ~~g.~~ f. Volunteer training is permitted.
 - ~~h.~~ g. Youth volunteer events are permitted Saturday between 1 p.m. and 4 p.m., only.
 - ~~i.~~ h. Cooking is not permitted on-site.
 - ~~j.~~ i. A maximum of 17 volunteers is permitted on-site at any one time.

14. **CONDITION AMENDED BY PLANNING COMMISSION:** Supply deliveries, loading, and unloading activities shall occur between the hours of 8 a.m. to 4 p.m. and must occur entirely on-site, by a passenger vehicle and or 12-foot box truck, and met by staff or a volunteer. Deliveries, loading, and unloading shall not occur from Clifford Avenue. ~~(P&Z)~~ (T&ES) (PC)

Staff continues to recommend approval of this SUP proposal subject to the report revisions in the Site Description and Staff Analysis sections, to the amendments to Conditions 2 and 14, and to all conditions contained in the report.

To Whom It May Concern:

As Pastor of St. Rita Catholic Church, it gives me great pleasure to write this letter of support for Mother of Light Center's "Special Use Permit" application. The proposed Center at 421 Clifford Ave. will provide spiritual and practical resources for men and women who are less fortunate.

Since 1914, St. Rita Parish has been a hallmark in the city of Alexandria. I anticipate that St Rita Parish and Mother of Light Center will enter into a strong and dynamic partnership. The parish will be committed to providing volunteers to sustain the works of the Center, as well as in-kind donations, and other shared resources. Our outreach program has grown and we see our work extended at Mother of Light Center.

I fully support the efforts of Mother of Light Center to bring love and services to the vulnerable, low-income men and women in our neighborhood. I will recommend Mother of Light Center to sponsors, and I look forward to hearing about its success.

Yours respectfully,

A handwritten signature in black ink, appearing to read "Daniel Gee".

Dear Staff,

The Lamb Center is a day time drop-in center and has been serving the poor and poor in spirit in Fairfax City for over 25 years. Our center provides a place for those in need to come when they often have no place else to go. We provide meals and other services, and connect those experiencing homelessness to employment, housing, medical care, mental health care, and recovery programs among other things.

The Mother of Light team has spent hundreds of hours in consultation with us and shadowing our staff. We fully support their efforts to start a drop-in center in the City of Alexandria. There center will provide a place of respite for those in need and fill a gap in badly needed services.

We fully support their request for a Special Use Permit.

Blessings,

John MacPherson

To Whom It May Concern:

I met last year with Matilde Alvarado to learn about Mother of Light Center (MOLC) and the work they will be doing at 421 Clifford Avenue in Alexandria. Officer Bennie Evans of the Alexandria Police Department introduced us as they were interested in serving the population that we also serve at our David's Place program and the City of Alexandria's Winter Shelter Program. Ms. Alvarado was provided the opportunity to shadow our staff in David's Place to see the services provided.

I wish Ms. Alvarado and her team at the Mother of Light Center the very best of luck in this endeavor.

To Whom it May Concern:

As the owner of the property at 421 Clifford Ave in Alexandria, I am writing to strongly support the issuance of a Special Use Permit to the Mother of Light Center. The Center will provide beneficial services both spiritual and practical to the less fortunate in the City of Alexandria. I fully welcome their mission and I am impressed to know that volunteers who are giving their time and effort to help those in need will run the Center.

I will continue to administer my printing business as a part time job in the same Clifford Ave. location. I don't foresee any problems since this group will have procedures and rules in place, which will be enforced to keep the Center functioning well. I understand there will always be a volunteer manager on duty at the Mother of Light Center who can respond to any concerns and take action when any issue arises. I am confident that they will offer a great service to the community in Alexandria.

Please feel free to contact me at (571) 259-7118 and I will be glad to answer any questions you may have.

Sincerely,

Asfar Aziz

May 11 Hearing - request deny Special Use Permit #2018-0017 for 421 Clifford Avenue

Laurie Young <ldyoungdesign@verizon.net>

Mon 4/16/2018 11:38 AM

To: PlanComm <PlanComm@alexandriava.gov>;

Dear Planning Committee Members,

I am a resident of Ashby Street and I am writing to request that you deny the request for Special Use Permit #2018-0017 by Mother of Light Center for a respite day center at 421 Clifford Avenue. The North side of Del Ray is already saturated with public service buildings and residences. There are two half-way homes within a block of my street as well as the property on Clifford, and there should not be any more.

My immediate neighbors and I have valid concerns. A data-based white paper published in *The Journal of Experimental Criminology* outlines data that illustrates "The presence of a shelter appears to cause property crime to increase by 56% within 100m of that shelter, with thefts from vehicles, other thefts, and vandalism driving the

increase." https://crim.sas.upenn.edu/sites/crim.sas.upenn.edu/files/Ridgeway_Effect%20of%20Emergency%20Shelters-v5_1.2.2018.pdf

Even without residency services, where are these people expected to go after closing? D.C. has been unable to eliminate the tents in areas around 21st and E Street NW, even though the city repeatedly attempts to clean up grills, upholstered furniture, mattresses, and other materials as well as offering individuals other safe locations to reside. I worry that our neighborhood will experience the same problem as DC.

Many people worry about decreasing property values. *The Washington Post* article by Terrence McCoy in February 2016 states that "homeless shelters sometimes raise the property values if the shelter helps stabilize a distressed community." Our neighborhood is **not** a distressed community, because we have eliminated the crack houses. We don't hear gunshots at night. We've lived here over two decades stabilizing the neighborhood has taken perseverance and work that I am not willing to sacrifice for a respite day center for homeless.

I understand that compassion is necessary for the homeless. Conversely, this house is all I have and I feel threatened. Please deny Special Use Permit #2018-0017 for Mother of Light respite day center at 421 Clifford Avenue.

· · Initial customer description · ·

To Whom It May Concern:

I am a homeowner on Clifford Avenue in Alexandria, VA, and my husband is an active duty military officer. I am writing to you regarding the Special Use Permit for 421 Clifford Avenue. My husband and I have strong reservations against the use of the space as a respite center for the homeless and disadvantaged at this location.

I have previously worked directly with homeless populations through AmeriCorps and I have worked for, or volunteered with, non-profit organizations for over 10 years. I understand the importance of these services for the most vulnerable populations. However, I have personally experienced some of the risks that come with working with these groups. I am a mother with two young children. I would no longer be comfortable allowing my children to play outside our home with this shelter located on our same block. And I would no longer be comfortable walking alone in the evenings outside my own home.

Thank you for your time. Please feel free to contact me for further discussion.

Best regards,

Erin Behrman

Madeleine-

These are some of my concerns. Our neighbors and my family have valid concerns about this organization, lack of planning, and lack of experience.

I feel very frustrated with this whole process.

Thank you
Ashley apreston

Annie,

Although this is not directly specifically towards you- this is how I feel so i apologize if this appears harsh.

I heard from my husband and neighbors that the meeting did not go well last night, and many of their concerns were dismissed. I am having a difficult time understanding how the Del Ray Land Use Committee who is supposed to represent and understand the complaints of the actual citizens of the neighborhood can be in support of a center who does not have all of their kinks worked out. The organization is not from Del Ray and the volunteers are not from the Del Ray area. The people that are being "shuttled over" are not from Del Ray, but from Fairfax and Arlington Areas. Again this is not a neighborhood issue. Is this shuttle finalized and will people be shuttled back out or will people be free to loiter in the neighborhood and surrounding area? Are they provided cab vouchers to facilitate people getting back?

If this were just a distribution center and food prep area, my biggest complaints would be the need for increased sanitation and trash being emptied every week as compared to twice a month. My household of my husband and myself is only 2 people, and we have our trash emptied every week. I can't imagine the smell that is going to come from their dumpsters/trash area if it is emptied twice a month. This street also is not equipped for large amounts of deliveries, and this shelter doesn't have a loading or unloading doc to receive deliveries such as A-SPAN. I am also not sure with all these deliveries/donations how trash again can only be emptied 2x's a month.

My husband was discussing that up to 17 workers would be there at one time. They also stated that they would be using the parking lot at Bingo's Tire and Verizon Store for their overflow parking, which is a shared parking lot only for Verizon and Bingos. I would like to see this in writing, because Bingo's Tire does not even have enough room to accommodate their own customers, let alone accommodate people working next door. I highly doubt bingo's and the Verizon store are going to be open to this. These continue to be ideas coming from MOL- the neighbors want concrete answers.

My husband asked about the screening process about individuals coming to the center. He was directly made aware at the meeting that this would just be based on referrals and no screening process would occur. He was also made aware that no one would be turned away. This is setting up the facility for extremely unsafe practices without the proper amount of police and medical response in the near by area. It is also a Virginia State Law that Sex Offenders cannot be within 100 feet of a Child care Center; if they are violent sex offenders by Virginia State Law they are not allowed to be present during day care hours at all. Sex Offenders are just one of the problems with the lack of screening processes. Although not all homeless have mental health issues, a large part of mental health is noncompliance with psych meds and drug/ETOH abuse. There are no trained counselors on this board, and not one is CPI trained to diffuse

heated situations/self defense. On the 400 block of Clifford alone, you have 2 first responders, a social worker, and 2 individuals who work in case management. We work with homeless everyday and are not naiive to issues. We are not being irrational, we are truly concerned for our own safety. Again, we want concrete answers.

We don't have a patrol in our area due to lack of crime. In addition, EMS does multiple runs daily to these types of facilities. If Del Ray is truly concerned about an ambulance being present for Del Ray residents (this was a large discussion in the last meeting,) are they aware of the multiple EMS calls that come in daily from shelters? The answer is many, and this can be a strain on our community and our resources. Has this been taken into consideration?

It was suggested to the neighbors for us to check in monthly with MOL and make sure they are abiding by their SUP. If Del Ray Land Use Committee is for this organization-- shouldn't they be checking in monthly with MOL? The neighbors are not for this organization due to lack of planning and lack of experience in these issues. We have a petition against the organization signed by neighbors and local businesses, we aren't supporting this organization.

Since I've started this process of emailing---- I have had NO clear answers to any of my questions. MOL was asked to reach out to the neighbors by The land use committee at the initial meeting. They didn't --- not even an attempt. How can Del Ray Land Use Committee approve this? We were told at the first meeting that the website would be corrected the following day. MOL had over 30 days to correct their website and didn't make any changes as requested. How are we supposed to believe that they will follow through with anything when they didn't follow with these simple tasks to "talk to your neighbors" or fix your website?

Again I'm sorry if this appears harsh but I really am upset that we are living on this street yet we have no opinion and are not provided any answers to questions that should be easy answers to this organization.

RE: SUP # 2018-0017

421 E Clifford Ave

The Del Ray Citizens Association conditionally supports the Special Use Permit application for a social service use.

On May 9, 2018, the Del Ray Citizens Association (DRCA) voted to support SUP application #2018-0017 with the following conditions:

1. The SUP requires that trash be kept in a closed container;
2. Trash is collected weekly; and
3. Planning staff will conduct a review of the SUP six months and one year after the Mother of Light Center's social service operation commences.

The DRCA further recommends that the applicants stripe the parking lot, if possible, and that they identify a point of contact within the Mother of Light Center organization who can be a liaison to the community. The DRCA envisions that this person's contact information would be widely shared so that the neighbors know how to reach someone if there is a problem or question. The DRCA also suggests that, if possible, the applicants identify a point of contact within the community who can represent the neighbors and build a relationship with the Mother of Light Center representative.

The DRCA's Land Use Committee (LUC) held two open, public meetings regarding the SUP application, both of which the applicants attended. After the first meeting, in April, demonstrated that the original application was highly contentious, the applicants overhauled the business plan. The revised application, discussed at the LUC's May meeting, proved far less controversial, though several neighbors were and remain strongly opposed because of concerns about parking, safety, and a lack of outreach on the applicants' part. The DRCA hears these concerns and proposes the above recommendations and condition for a six-month review to help to address them. Further, the DRCA believes that the applicants' willingness to completely revise their application in response to neighborhood concerns shows good faith, and that the Mother of Light Center as proposed in the revised application would be an asset to this community.

Sincerely,

Annie Ebbers
Kristine Hesse

Nat Wilson <natwilson@gmail.com>

Mon 6/4/2018 4:07 PM

To: PlanComm <PlanComm@alexandriava.gov>;

Dear Members of the Planning Commission,

I'm writing regarding SUP application 2018-0017 at 421 Clifford Ave. As a resident of Clifford Ave and as a parent who will be enrolling my daughter at the daycare at an adjoining property, I oppose the application for the following reasons:

- The site is too small to contain the proposed intensity of use and the existing printing business.
- The proposed use doesn't conform to the 2016 Master Plan amendment for residential use.
- The proposed use will prevent redevelopment of the site, as well as discourage investment in the area.
- The applicant notes that the gate will be used to prevent loitering on the property. The gate has an approximate one-foot setback so loitering will occur on the public right of way and adversely affect neighboring properties.
- The property owner has shown a disregard for city ordinances and has accumulated several zoning violations. Given the public statements from the applicant that no one will be turned away I expect there will be scope creep.

Given the property owner's past disregard for city ordinances, I believe there are no SUP conditions that could be applied to mediate the adverse effects of the proposed use. I urge the commission to reject SUP 2018-0017.

Thank you,
Nat Wilson

Subject: Re: SUP application for 421 Clifford Avenue

Thanks so much, Madeleine.

By the way, I was surprised when your report said that the building to the west of 421 Clifford Avenue is vacant - that's 417/419, where Plaza Izalco is and they've been difficult neighbors to say the least. I spoke to you on the phone about them and sent you an email as well (along with Anne Isaacs). They're routinely in violation of their SUP by having 18-wheelers making all of their deliveries, keeping their lot filled with debris, and creating a significant amount of noise while unloading. In addition, the owner was arrested for chasing and assaulting one of his employees with a machete, he has verbally attacked me numerous times, and a Federal search warrant was served there in reference to criminal activity they're engaged in. So "vacant" certainly doesn't accurately reflect the negative impact they've had on the neighborhood. I've provided this information to the City several times, and other than being fined for unloading in the street (which, of course, is a violation of City Code), nothing has been done to address these issues.

I'd appreciate it if this email is either included in the package being sent to the Planning Committee and City Council or forwarded to them separately.

Again, thanks for your help with this process!

Adrienne

Subject: SUP application for 421 Clifford Avenue

Dear Mary and Madeleine,

I am writing to express my strong opposition to the approval of a special use permit for the Mother of Light Center at 421 Clifford Avenue. I have spoken to you both on the phone, of course, but wanted to convey my concerns in writing as well.

The MOLC has asked me why I am opposed to helping the homeless/disadvantaged - the assumption they're making by asking this question is unfortunate and couldn't be further from the truth. I'm a strong supporter of helping the homeless/disadvantaged and have been doing so for the past 25 years as an Alexandria police officer. I learned the importance of this from my mother, Joann Miller, who spent a significant portion of her life helping citizens of Alexandria. That being said, after 25 years of working with the homeless/disadvantaged, I am fully aware of the problems and risks involved with this endeavor. Unfortunately, a large percentage of them suffer from significant mental health issues, are addicted to drugs/alcohol, engage in/display

inappropriate behaviors, or have criminal histories. As a result, facilities assisting them, and the neighborhoods in which they're located, experience problems such as loitering, excessive noise, disorderly conduct, fights, urinating in public - and even more concerning, an increase in criminal activities such as assaults, larcenies, destruction of property, drug activity, and prostitution.

When I moved to my house at 413 Clifford Avenue 17 years ago, it wasn't the neighborhood it is today. I had prostitutes and their customers parking in front of my house, intoxicated people passing out, throwing up, and urinating in my yard, and I routinely found used crack pipes and syringes in the street. Some of the people I confronted in front of my house were even wanted by the police. After enough people were confronted or arrested, and with the effort of the community, the problems eventually dissipated. This is a nice, safe community now, as is evidenced by the increasing number of families with young children seeking to move here and the establishment of family-friendly businesses, such as the daycare center directly behind me on Hume Avenue. It's extremely upsetting to think that these problems might return this community now, and to a greater degree. This is a quality of life and safety issue for the residents of this community, particularly those closest to 421 Clifford Avenue (several of which are within just 100-300 feet).

I have a significant problem with the reason the MOLC chose this location. Del Ray does not have a homeless problem; this is my from personal experience, as well as that of Off. Bennie Evans, who works very closely with Alexandria's homeless. The MOLC has admitted that they chose this location simply because it was available and had the cheapest rent they could find. So their choice wasn't based on serving the needs of the community at all, and in fact, they'll be doing quite the opposite. They'll be bringing the homeless/disadvantaged and the problems noted above into a community where they don't currently exist. I don't think it's reasonable to expect the residents of this community to have their quality of life, safety, and property values jeopardized so that the MOLC can save a few dollars in rent every month. There are certainly other locations that are more conducive to the MOLC's mission and aren't in such close proximity to homes. The MOLC is determined to use this location though because they already signed a lease and have been paying rent since last November. This was extremely presumptuous and premature on their part and this community should not have to pay the price for that.

I have other concerns as well, a few of which I'll outline.

- Inexperience of the MOLC: The MOLC is a new organization. While they've observed the operations of similar organizations, they've never done this type of work themselves. Their staff will be comprised of volunteers, who have little to no training on how to effectively and safely work with people suffering from mental illness or drug/alcohol addiction. In addition, their plan has been very vague, contradictory, and fluid, and frankly, they seem to be winging it. There's too much at stake for this community, as well as MOLC volunteers and clients, for the MOLC to wing it.

- Continually changing plans and contradictory statements of the MOLC: The MOLC has presented three different proposals now, addressing among other things, their hours of operation, the activities that will occur at the Center, the types of services they'll be providing to clients, as well as to whom, how many,

where and how often these services will be provided. Many of the statements the MOLC has made to me and several of my neighbors have contradicted what they've stated on their application. This could be because they're inexperienced and winging it, as I mentioned above, but I've learned through experience that some applicants say what they feel they need to on an application in order to get approved and once approved, operate their business as they please. I'm very concerned that this is the case with the MOLC. I been reassured by the City, and I know from personal experience, that if you bring an SUP violation to the City's attention, it will be addressed with a warning, citation, or fine; however, this is a long process, which all too often does not result in any significant change, let alone the closure of the business. Meanwhile, the community is left to deal with the business and its violations.

- Parking & increased traffic: There are 8 parking spaces at 421 Clifford Avenue, which are not nearly enough to accommodate the current printing business, which will be staying there, and the delivery vehicles and up to 20 people that will be at the MOLC. There are very few spaces on the street and they're usually taken by employees of the nearby businesses. In addition, Plaza Izalco at 417/419 Clifford Avenue has 18-wheelers making all of their deliveries (in violation of their SUP) nearly every day, sometimes twice a day, blocking the street in the process.

I understand that this is a difficult decision, but I hope that the MOLC's reason for choosing this particular location won't be given more consideration than the well-being of this community.

Many thanks for hearing me out and for the assistance you've given me.

Best wishes,

Adrienne

P.S. I would greatly appreciate it if you would include this letter in the package forwarded to the Planning Commission and City Council.

Delivered via email: Madeleine.Sims@AlexandriaVA.Gov

Ms. Sims,

With regards to the Special Use Permit (SUP) Application for the property located at 421 Clifford Avenue via the applicant, Mother of Light Center (MOLC), we wish to express our strong concern and explicit objection to this proposed use. Given the limited parking at 421 Clifford Avenue of 8 parking spaces and the number of projected participants (MOLC volunteers/clients) there simply isn't enough parking to support this organization's proposed use. To further compound the parking deficiency issue, the building owner, Mr. Asfar Aziz, has stated within the SUP application that he plans to continue to operate his printing business on the property, albeit on a part-time basis, it still further creates additional demands on a 1200 Square Foot building with a mere 8 parking spaces. Where will Mr. Aziz park his car? When applicable, where will his employees, vendors, suppliers and customers park their cars when visiting his business? Unless overlooked mistakenly, we see no mention within the SUP of parking demands and plans for AZ Printing? Should this not be taken into consideration?

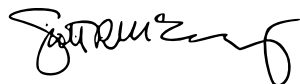

Secondly, contemplation should be carefully taken as to the profile of the immediate surrounding neighbors, most of which are either residential or retail establishments and both with 7 day/week parking demands. Case in point, both our tenants at 2920 Jefferson Davis Highway, Cellular Sales and Bingo Tire, are open Saturday and Sunday, from approximately 9am-5pm. Residents of the surrounding single family homes will be home on Saturday and Sunday, therefore claiming some of the street parking MOLC plans to utilize. We can't speak for other owners of surrounding retail property, but I can state firmly that given our very limited parking at 2920 Jeff Davis Highway, we cannot at any day or time offer assistance to MOLC for their inadequate parking needs.

Lastly, as much as we admire MOLC's mission to improve the lives of those less fortunate, it can't be overlooked that extending a helping hand to the needy, disadvantaged and homeless does come with a degree of loitering in and around any given property with this sort of charitable outpouring. Per the SUP application, MOLC's solution to prevent loitering is to utilize a "locking gate." While this certainly discourages after hours loitering on 421 Clifford Avenue, it does nothing to prevent or discourage loitering around neighboring properties.

Again, I stress that we admire and support MOLC's mission and efforts, but not as an occupant at 421 Clifford Avenue

Thank you for your time and thoughtful consideration.

Best Regards,

Scott McElhane, Managing Member

Subject: 421 Clifford Ave SUP - feedback from Shawn & Holly Busby Inbox x

Hi Madeleine Sims,
Holly Busby and Shawn Busby do not support the special use permit (for 421 Clifford Ave) for the following reasons:

Shawn's perspective: I don't see anything in the application that identifies MOLC will be working jointly with county, state, or local resources to help address the needs of the homeless (including health services for mentally ill and substance abuse). Trained volunteers are simply volunteers - they are not trained professionals with proper education or licensing to provide intensive intervention services that are required to make an actual difference / positive outcome. Personally speaking I am concerned with many other items such as: safety, security, litter, crime, drugs, pan handling, loitering, etc. I assume the respite day center will naturally pull homeless into the neighborhood for the services they offer. I see nothing in the special use permit that acknowledges this and articulates what MOLC (or city, state, or local government) will be doing to mitigate the impacts that could have upon the citizens of Del Ray.

Holly's perspective

I have worked in the human services and criminal justice field for over 26 years and am keenly aware of the unique needs and challenges the homeless population brings. There is no question that there is a great need for community resources and intervention in the areas of chemical dependency, mental health and medical interventions as those factors are most commonly and frequently a huge contributor in their homelessness. However there is a growing body of research that indicates expert, evidence based interventions are the only types of intervention that have demonstrated real results to include a reduction in recidivism, relapse, and an increase in housing stabilization.

I work for a federal agency who provides specialized crisis intervention training to law enforcement and other criminal justice and community based professionals who interact and intervene with this population. This specialized training increases the chance for positive intervention and outcomes for those folks suffering from mental illness and substance abuse issues. Although I can appreciate the desire of good people to offer assistance it is critical for the best interest of the people they are trying to help as well as the community as a whole that the intervention and assistance is based on sound research and provided by highly trained people. It does not appear in this application that this is the case.

As a woman who lives close to the proposed location I can honestly tell you granting this special permit will place me and others in our neighborhood at risk of harm. My current worksite in DC is across the street from a similar shelter for the homeless. Everyday there are long lines of people waiting to get served, lining up hours before the site opens. Although this applications indicates it would serve only 33 people, there is absolutely no way for anyone to limit the number of people who will show up or when they will show up or where they will

go once turned away. On a daily basis I am witness to drug dealing, drug use, loitering and panhandling. I don't want this to be my experience on the street where I live and until now have felt safe.

Thank you for your thoughtful consideration. It is my hope you will deny this special use permit request. Your decision will impact not only those of us who call Del Rey home but those who need the help of well informed, highly trained professionals, something that is glaringly not evident in the proposed plan.

Dear Madame or Sir:

I am writing to express my strenuous objections to the placement of what purports to be a social service organization at the top of my street. I have a Master in Social Work, and I spent ten years working as a social worker in multiple communities, and it is through this experience that I call into question 1) the need for this outpost on my street, or even in Del Ray 2) the level of preparedness of this group to successfully run an organization and 3) this group's care and concern for my neighborhood.

There is Zero Need for This Outpost on My Street

This group as not articulated the need for the "services" they purport to deliver. Why is it that they can't simply pool their resources and support existing organizations that serve the homeless? Why is a new organization necessary? How is this effort in any way an efficient way to get help to those who need it? I don't see ANY evidence in their SUP. In their SUP they talk about meeting homeless people where they are in communities then referring them to this outpost on Clifford for service. An Alexandria Police Officer who attended the first Land Use Committee meeting in which this group was discussed went on the record as saying there are no homeless people in Del Ray. I fail to see how it is a good idea to attract them to this neighborhood, my block in particular, which includes several vulnerable senior citizens, at least one toddler, several single women, and a few children. Isn't it putting a burden on them to require them to travel here to get the help they desperately need? If they are meeting the homeless where they are, why can't they serve them there? Why is it necessary to introduce them to my neighborhood, possibly exposing my neighbors and I to the dangers that we all know come with the presence of the indigent? Part of why I chose to purchase property in this area is the confidence I have in my personal safety here. This proposal completely obliterates that sense of security that I have. If, for some reason they are not able to serve them where they are, then why can't they simply offer services to them in their churches? Why does it have to be on my block? I'm not seeing the logic here. I call this an "outpost", because what they propose really is an outpost of the Catholic church, not a true social service organization. I have always found it to be distasteful to see religious organizations of any denomination proselytizing to the vulnerable. It's one thing if people choose to go to their church, it's quite another if they associate meeting basic human needs with religious activities. I had several clients who relied on resources given at one such outpost in another city. While the outpost purported to simply exist to serve the needy, all the volunteers would insist on praying with those who came in for help. Some of them would joke that they'd have to pray the rosary in order to get the light bill paid. While I realize they are two separate organizations, I offer the anecdote to illuminate what this group of people is actually proposing to do. Indeed, they talk about providing "spiritual support" to those seeking aid; this is a thinly veiled way of saying that

they will be proselytizing to the needy-taking advantage of people who are living in utter desperation to convert them to their religion. They are proposing to run an outpost of the Catholic church, not a true social service organization.

They state that their volunteers will receive training from “counselors” from the psychology department of Divine Mercy University in Arlington. This “University” is not recognized as legitimate in the field of mental health by virtue of its mission and practices which promote proselytizing over practicing research-based mental health service. It’s mission reveals it’s true nature, not one of a legitimate academic institution, but an arm of the Catholic church: *“DMU seeks to further the science and professional practice of psychology and counseling, through the integration of Catholic-Christian [anthropology](#), [philosophy](#), and [theology](#). The need for mental health practitioners with a firm and comprehensive understanding of Catholic teaching, culture, and history inspired the establishment of this institution.”* Contrast this to the mission of the Psychology Department at Howard University, a legitimate academic institution that prepares students for careers in the field of mental health: *“Our focus on scholarship, research, and service provides an excellent foundation for graduates of the program to pursue careers in the psychological sciences or related fields.”*

I am most certainly NOT comfortable having volunteers with inadequate training serving vulnerable people ON MY BLOCK.

Can they not pool their resources and support existing social service organizations?

This Group is Not Prepared

One of my jobs as a social worker was to run a battered women’s shelter, which was a program that relied on the kindness and commitment of multiple volunteers to serve families who became homeless due to violence; in fact, I started my career as one of them. As an organization, we recognized that it was completely inappropriate to have volunteers providing counseling of any sort to the families in need-too many things can go wrong if you do not have the training to manage the deep needs of people in crisis. Whenever volunteers were present, so were paid staff who had received rigorous training. Receiving training for two days does not prepare someone for providing quality services to the needy. The homeless are some of the neediest of the needy; NIH reports that 25% of them are mentally ill, and 25% are chemically dependent. These sorts of intractable problems cannot be adequately addressed or managed by people who received two hours of training from a church. The SUP fails to outline who will supervise the proposed volunteers, how they will be managed and held accountable, and how the quality of services provided will be guaranteed. The fact that the SUP does talk about volunteers receiving training from a pseudo-academic institution illuminates the very poor preparedness of this group to deliver quality services that the homeless surely deserve.

The SUP articulates nothing about policies and procedures for handling their clientele should problems arise. We all know that these types of organizations are magnets for public urination and disturbances of the peace. People get frustrated if they think they are not receiving services they need, they might pick a fight with another client, or with a volunteer and leave

angry. How would their volunteers deal with either of these types of scenarios? And others? The organizers have not thought it through. They have not “actively engaged the neighbors in having a voice in the development of our policies and procedures.” Nor have they legitimately communicated what their policies and procedures will be.

The study of “Catholic-Christian anthropology, philosophy, and theology” does not adequately prepare individuals to serve a population with legitimate needs for qualified service. Why not support organizations that are already in existence and can do this? Why waste the time of the needy on sham services from people unprepared to provide real ones?

They are simply not prepared to provide services to this population, and no evidence suggests that this will change.

This Group Does Not Care About My Neighborhood

After realizing it was a bad idea to propose this organization without engaging the neighbors, the group thought it was a good idea to go door-to-door to speak with us. This was supposed to happen during two separate ranges of dates, but they were not organized enough to make the first one, so they came around last weekend. I was not home when they came, but they left a crumpled copy of the narrative description section SUP on my doorstep. Why would they not simply host us at the proposed space, advertising a night when we could all go and engage with them, instead of the hit-or-miss door-to-door campaign? If they really wanted to engage with us that is what they would have done.

Another example of their disregard for my neighborhood is their insistence in the first two SUPs that they will not come up with a plan for trash removal until they start providing services. This is not acceptable. Their initial idea to serve 66 meals twice a week, which they dubiously claimed would produce 30 gallons of garbage a week, included a plan for biweekly trash removal. I can't imagine any of the organizers would accept mounds of food trash attracting rodents and roaches stinking in the sun for two weeks on their blocks. The outrageousness of this arrogant proposal is indicative of their utter lack of care and concern they have for my neighborhood. I know that they changed this in the third version of the SUP, but the fact that it was proposed to begin with and even survived a revision after we expressed our concerns to them about it at the Land Use meeting in April. This reflects an attitude of carelessness and arrogance that I fear is will be evidenced in ways we cannot predict should the city allow this organization to open its doors on my block.

I urge you to reject their proposal. The lack of need, preparedness, and concern of my neighborhood all point to a disaster-in-the-making if you allow them to open their doors in my community. They could easily take their care and concern and funnel them into exiting organizations that serve the homeless that are well-designed, well-managed, and prepared to serve this needy community.

Sincerely,
Emily Allen

To: Madeleine Sims
Subject: Letter of Opposition to SUP at 421 Clifford Ave

To Whom it may concern,

Please remove my contact information from this, but consider this as a letter of opposition to the proposed SUP for 421 Clifford Ave, submitted by the Mother of Light Center (MOLC).

We first learned of the SUP from the Del Ray Citizens Association (DRCA) in April. MOLC listened to concerns from neighbors and adjusted their SUP to hear those concerns, for which they should be commended. However, in the time since then they have misrepresented themselves, and been incredibly vague and dismissive about their activities and stating support from neighbors, which is not entirely true. While the DRCA and some neighbors are in support, those of us who have interacted with MOLC more regularly have concerns, which cannot and should not be glossed over.

MOLC has indicated that they are willing to have a conversation with neighbors and address concerns, however after the meeting in which they said that- I basically had to run after them to track down contact info. This doesn't seem to indicate that they are actually interested in neighbor concerns. They have dismissed questions about screening processes, and security measures as though they are minor concerns. While the operations proposed in the SUP have been scaled back dramatically, the MO presented by them thus far does not indicate that they will be an honest and forthcoming neighborhood partner, as they stated they will be.

While the property in question is indeed a commercial property, it is within 150 feet of a residential neighborhood and is on a predominantly residential street. If indeed, MOLC intends to offer counselling services to those who are in need and disenfranchised, it is important for the residents of Clifford Ave to understand how MOLC will screen to ensure that anyone dangerous is not being brought into the neighborhood, and how precisely MOLC will reject or remove anyone who presents a danger. Any policies and procedures that MOLC has developed should be included in their SUP and considered when the Planning Commission determines whether to approve it.

MOLC's mission is noble, and they should be commended for their commitment to help the less fortunate, however we question the legitimacy of the location, as well as their commitment to providing safe and effective services, as they relate to their clients, their volunteers, and the neighborhood they are proposing to be a part of.

Sincerely
Willet Hossfeld and Lucie Coneys

SUP #2018-0017 (421 Clifford Avenue - Mother of Light Center)

Anne <agi@georgetown.edu>

Tue 6/5/2018 6:52 PM

To: PlanComm <PlanComm@alexandriava.gov>;

Dear Commission Members,

I'm writing about the Special Use Permit #2018-0017 (421 Clifford Avenue - Mother of Light Center). My Mother and I reside at the 400 block of Clifford Ave. and, upon having met with the MOL representatives, would like to voice our reservations about MOL scope and proposed operations.

1. MOL is not prepared to handle troubled "clients" due to lack of qualified (professionally trained) staff onsite and lack of clear admittance procedures. MOL relies upon volunteers and plans to keep an unofficial "open door" policy for walk-ins. Our neighborhood already has a drug- and alcohol-addiction recovery facility, The Men's Home at 402 Hume Avenue. Their clients can participate in the program activities only after careful and on-going screening process. From http://themenshome.org/mhwp/?page_id=37:

With guidance from The Home's Board of Trustees, the co-managers handle all admissions... Applicants may apply directly for admission, or be referred by a family member, friend, physician, clergy member, employer, social services agency, or detoxification center. To qualify for admission, applicants must:

- Be at least 18 years old
 - Be sober and drug-free
 - Submit to and pass a drug test
 - Have no history of violent behavior
 - Have an AA sponsor with at least one year of sobriety
 - Disclose their full personal, medical, psychological, financial, and legal history
 - Pay rent
 - Be employed or seek employment
 - Regularly attend AA and Home meetings
 - Perform daily household and maintenance chores
 - Agree to random drug testing at management discretion
2. MOL is seeking to bring troubled individuals into a neighborhood with a wine shop, child care facility, and elderly residents as well as small children without guaranteeing anyone's safety. Fairfax and Arlington zoning regulations require that a facility offering services to troubled members of community is located in a commercial zone, away from liquor stores, and not in proximity to child care facilities. MOL application violates all three requirements.
 3. Finally, MOL has deceived our neighborhood on several occasions
 - hiding their activities, which began in May
 - reducing the scope to obtain approval from the DelRay Civic Association, and then expanding the scope after the approval
 - blaming the City of Alexandria zoning and planning department for MOL not engaging with the community

- ignoring neighborhood concerns

The 400 block of Clifford proposes to eliminate “client services” from the SUP scope and limit usage to volunteer activities only. If that’s not possible, we humbly request that Commission members defer the review by a month for MOL to work-out the following amendments with the neighbors:

1. Make weekly client list transparent (not names, but daily schedule of referrals and walk-ins) to track the number of attendees
2. Categorically disallow a walk-in option
3. Define who takes responsibility for clients every day 12-1pm (volunteer shifts run 8am-12pm and 1-4pm)
4. Clearly define how clients, including walk-ins, will be prevented from loitering
5. Guarantee client screening for substance abuse, mental issues, and criminal activity history for every client (provide proof)
6. Remove donations drop off on Saturday or require 2-3 designated onsite parking spaces for dropping off donations
7. Allow weekly drop-in inspections by neighbors or designated POCs
8. Conduct monthly meetings with the 400 block neighbors or their POCs

Thank you for your consideration.

Kind Regards,
Anne and Nataly
